STAY COOL AND HYDRATED

Signs You Might Be Dehydrated

Thirst

Dry Mouth

Decreased Urination

Bad Breath

Fatigue

Dizziness

Dry Skin

Headache

As temperatures rise, keep these tips in mind:

- Stay hydrated.
- Take regular breaks in shaded areas.
- Wear light, breathable clothing.
- Use sunscreen to protect against UV rays.
- Monitor for signs of heat exhaustion.

DON'T LET THE HEAT SLOW YOU DOWN

As the weather warms up, prepare your machinery for a productive season with these key tips:

- Ensure smooth operation by checking radiators, hoses, and coolant levels to prevent overheating.
- Keep your machine's A/C and airflow in top condition for a comfortable and efficient work environment.
- Check battery health and connections before starting up after extended periods of inactivity.
- Perform daily pre-start inspections, clean coolers, and remove any debris to prevent potential fire hazards.
- Always have a properly charged fire extinguisher on hand.

At Hitachi We Can Help! We offer comprehensive services to keep your equipment running smoothly throughout the season.
