YOU'RE IN CONTROL

You're at the heart of Hitachi's design for its latest range of excavators. To continuously improve on previous generation machines we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the Zaxis-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

COMPLETE CONTROL

The new Zaxis-7 range of medium excavators puts you firmly in control, so you can feel assured of your machine's performance and supported by the technological expertise and services that Hitachi provides.

The expanded cab interior provides a more comfortable working environment.

Integrated console and seat suspension gives a greater sense of control, and helps to reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle® camera system and new LCD monitor.

Sensors monitor oil continuously and contribute to preventative maintenance, helping to reduce downtime.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your excavator.

Improved access to components ensures maintenance is quick and easy.

The new HIOS-IV hydraulic system reduces fuel consumption and increases efficiency.

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

INCREASE YOUR SAFETY

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new Hitachi Zaxis-7 excavators give you a superior view of your surroundings, so you can see the job site from all angles.

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle® camera system. You can choose from six image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you.

To help you to work more confidently and efficiently, even in the most challenging of conditions, Zaxis-7 excavators are fitted with some impressive new features. From the LED work lights and the windscreen wiper with an increased sweeping area, to the large reflective strips on the counterweight and roller sunshades, you'll have the visibility you need when it matters most.

Attention to detail is also fundamental to a safe working environment – and the repositioning of the pilot shutoff lever is a perfect example. It is now within easy reach to prevent any unintentional actions.

The pilot shutoff lever offers enhanced safety in the cab.

Choose between different image layouts to suit your working environment.

LED work lights improve visibility in challenging conditions.

BOOST YOUR UPTIME

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi owners have profited from generations of ultra-reliable and durable machinery – and the Zaxis-7 range is no exception.

The latest Hitachi medium excavators have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

As a result, a wide range of durable new components have been fitted to the latest Stage-IV compliant machines – even down to the detail of the rigidity of the door hinges. Now standard on our Zaxis-7 range are hydraulic and engine oil monitoring sensors that help to reduce downtime and running costs.

Downtime is prevented by the durable after-treatment system, and also minimised by the priority given to easy maintenance and cleaning – saving you time and money. Peace of mind comes from such features as the two-way disconnect switch. This makes it possible to shut down power without resetting data on the monitor and prevents the battery from discharging during welding.

Durable after-treatment system prevents downtime.

Filters and separator are conveniently located for ease of inspection and replacement.

The air conditioner condenser can be opened for easy cleaning of the condenser and radiator located behind it.

Improvements to the undercarriage have enhanced durability.

Designed for durability and easy maintenance, Zaxis-7 excavators increase uptime and reduce the total cost of ownership.

CONTROL ZONE

Enhanced comfort and safety features are at your fingertips in the refined cab of Zaxis-7 excavators, giving you the power to perform productively, with ease and reduced fatigue.

- ① **Increased sweeping area of wide view wiper** enhances visibility in difficult working conditions.
*(Option only)
- ② **Air conditioning and audio** are easily controlled via the monitor.
- ③ **Low-reflective colour 8" LCD monitor** is easy to view and navigate.
- ④ **USB power supply and smartphone holder** helps you stay connected.
- ⑤ **Drinks holder** is easy to detach for cleaning.
- ⑥ **Additional joystick controls** for effortless operation.
- ⑦ **Ergonomic design** gives you convenient access to controls.
- ⑧ **Bluetooth®** for hands-free calls and **DAB+** radio for music while you work.
- ⑨ **Multifunctional control panel** makes operation easier.
- ⑩ **Improved sound isolation** makes this one of the quietest cabs in the market.
- ⑪ **User-friendly storage space** keeps your workspace tidy and clutter-free.
- ⑫ **12v and 24v outlets** for your electrical devices.
- ⑬ **One-touch adjustment lever for console** so you can work comfortably in the optimum position.
- ⑭ **Integrated console and seat suspension** gives a greater sense of control and helps to reduce fatigue.
- ⑮ **Increased legroom** creates a more spacious cab.
- ⑯ **Optimal pedal layout** helps to reduce fatigue.

Operation is easy with ergonomically designed controls and switches.

Bluetooth® connection for hands-free calls while you work.

GET MORE FROM YOUR MACHINE

Designed to work in perfect harmony with your machine, Hitachi preferred durable hydraulic breakers, hydraulic hitches, buckets and Ground Engaging Tools (GET) will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi construction equipment, they offer unrivalled reliability and exceptional performance.

Buckets

You can increase the versatility of your excavator by choosing the right bucket for the job. For loading light materials or heavy-duty work, Hitachi buckets can be customised to meet your needs. You have a wide range of options to choose from Hitachi supplied buckets with different capacities and widths.

Ground engaging tools

You can enhance the digging power and productivity of your excavator or wheel loader with Hitachi GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using Hitachi GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine.

Breakers

High-performance hydraulic breakers – approved by Hitachi – are perfectly suited to medium excavators. They are easy to maintain and user-friendly, and their high-quality materials ensure a long lifetime. This means reduced maintenance costs, fewer replacement parts and minimal downtime.

Attachments can be customised to suit the application.

Breakers are lightweight with high impact energy.

Hitachi GET include teeth and reliable adapters to ensure a precise fit.

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. 0 m = Ground.
