## **ALWAYS ISOLATE ENERGY SOURCES BEFORE WORKING ON EQUIPMENT**

- Plant and equipment have the potential to cause serious injury if it is energised whilst work is being undertaken, consideration must be given to the risks associated with stored energy prior to starting work.
- Plant or equipment must be positively isolated in line with Lock Out Tag Out (LOTO) procedures prior to work being undertaken.
- Each person working on plant or equipment must perform their own isolation prior to starting any work.
- Isolations must remain in place whilst work is being performed.
- Removal of another person's isolation lock or tag is strictly prohibited unless done so in line with LOTO procedures.

**Stay alert. Stay weather-ready.**  
**Safety starts with preparation.**

## **DON'T LET WEAR SLOW YOU DOWN.**

### **Inspect Belts and Hoses Regularly.**

- Prevent costly downtime by replacing worn belts and hoses with genuine Hitachi parts
- Check drive belts, such as serpentine belts, for cracks or wear
- Inspect hydraulic hoses for leaks, abrasion, or damage
- Monitor cooling system hoses to prevent overheating and machine failure

**At Hitachi, we provide complete belts and hoses replacement services to keep your equipment running at its best.**

**GET A FREE MACHINE INSPECTION WHEN PERFORMED BY A HITACHI CSR.**
